

BDC-122M-DB DUST COLLECTOR

SMALL BUT POWERFUL DUST COLLECTION SYSTEM

The Blastrac BDC-122M-DB is a heavy duty dust collection system. The BDC-122M-DB is ideally suited for use with small shot blasting, grinding, polishing and scarifying machines. It comes equipped as standard with an M-class star filter and a 37 litres dust bin.

For a safe, dust free and perfectly clean jobsite, Blastrac has designed a full range of consumables and optional items to get the best possible results out of your dust collector.

- Easy to clean using the manual hand shaker
- Equipped with a new generation of M-class filter
- Vacuum gauge

USER FRIENDLY

The BDC-122M-DB is small in size but powerful. It is very easy to transport in small vans because of the light weight components and compact design.

SAFE WORKING ENVIRONMENT

Every Blastrac machine has to be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

FOR HEAVY DUTY WORK

The BDC-122M-DB is especially designed to be connected to our small equipment. The high suction power, filter options and large dust bin capacity ensures that all dust is safely collected.

CONTINUOUSLY WORKING

Limited downtime is essential for any successful job. Due to the special design our BDC-122M-DB allows you to change the dust bin quickly for limited downtime.

AVAILABLE IN SEVERAL SIZES

Depending on the type of projects you are working on, you want to use a pre-separator that is most cost effective in the long term. Ask us for advice!

GREEN TECHNOLOGY

Our dust collectors, like any other Blastrac machine, do not use any chemicals or waste valuable drinking water.
